Brian's artistic and skillful piano and guitar stylings, his velvet vocals and beautifully crafted compositions have been warmly received by all. With twelve albums to date, including musical genres from rock, pop, folk to jazz, blues and country, Brian's eclectic tastes appeal to nearly every music audience.

### A TRIBUTE - To all firefighters

A career highlight of great honor was an invitation by the "International Fire Fighters" to write and record a tribute song for the numerous men and women throughout all of North America (including Canada) who have lost their lives in the line of duty. His song entitled *"Heroes Never Die"* has been received with high praise and heard by many thousands at tribute ceremonies and through media coverage. Brian performed the song for six consecutive years at the annual ceremony in his hometown of Colorado Springs, Colorado.

### A HUMOROUS SIDE - Singing Telegrams

Brian's sought after "one man" singing telegram venture continues to flourish as he performs short, original music sketches for birthdays and special events. Whether it's his hip-shakin' Elvis in black leather or red jumpsuit, an 80's rocker named Dude Vicious with outrageously spiked pink hair, a charming oldies crooner, a country star or an aging geezer who doesn't hide his love for the young ladies, Brian's surprise live greetings bring joy and laughter to all.
